

Parental Feedback from Digital Literacy Event 2014

How useful was the event?

- Very useful
- It was helpful and gave me more information about E Safety and Digital Literacy
- Very useful- I only had a vague awareness before today, but I feel empowered today as at least I know what I am looking for.
- I learnt a lot
- Quite useful- something I hadn't heard about before.
- Useful to know that children are taught internet safety in school and that there are help and resources for parents.
- Very useful. Will definitely use Hectors world etc. with my son as suggested.
- Very. As an adult it is easy to take it for granted that it is second nature to be careful- great reminder for small people.
- Very useful- good content and helpful presentation.
- Very good, think our children are still a bit young for some of the advice given.
- Very- good to have information and guidance.
- Very useful frightening how quickly the internet changes.

Was the timing of the session convenient?

- Yes, good to have am and pm options
- Yes it worked perfectly with drop-off
- Good to offer different times. Glad it is offered every year as I struggled to attend in previous years.
- Perfect
- Just, impossible to please everyone, having a choice was great.
- Fine

Is there any other support we can offer?

- Not at present
- Links to the website, articles about safety (Action- Article put up that shown at the event)
- Parental control, advice for YouTube (Action added how to guide on safety part of website)
- Parental workshops on coding (Look into coding with parents later in year and identified coding links for parents)
- More info on Numeracy and Literacy (Pass onto coordinators of these areas?)
- Interactive event with use of the computers. (Add an interactive dimension to next meeting)
- Regular talks with help to set up individual devices
- Hard links from presentation (Shared after meeting on E safety part of website)
- Keep the website up to date as we are not very good with technology,
- Maybe discussion on how long/often they can use it.

- Alert parents to any issues that arise (Add to website if and when new issues come up)
- Keep up the good work!
