

27th February 2019

Dear Parents and Carers

A challenge called the 'Momo Challenge' has hit the headlines. It is a sinister 'challenge' that has been around for some time but has once again resurfaced.

It is heavily linked with apps such as Facebook, WhatsApp, YouTube, and most recently YouTube Kids.

Please take time to read the attached guidelines published from the National Online Safety group. The National Online Safety group has a selection of additional guides which you may find helpful <https://nationalonlinesafety.com/resources/platform-guides/>

Within school we will continue to deliver our Digital Literacy Curriculum talking to the children about how to keep themselves safe online.

Yours sincerely

Mrs Turner
Deputy Head Teacher
